

AZMEB GLOBAL TRAILERS

COMPANY PROFILE

CAPABILITY STATEMENT

DEDICATION, INNOVATION, VISION & KNOWLEDGE

QUAD ROAD TRAIN CONFIGURATION ON QUAD AXLE TRAILERS & TRI AXLE DOLLIES.

The Company

AZMEB Global Trailers also known as BTS (Bulk Transfer Systems) manufactures the BOWL DOOR TIPPER, FLEX TIPPER and HIGH VOLUME SIDE TIPPER range of trailers for the Australian market and exports its products to Africa, China, and Indonesia.

The company's founder Mr Bernd Ostermeyer began manufacturing heavy road transport and mining equipment in 1975 producing Door Side Tipper for the Australian market.

Believing that side tipper technology could be improved, Mr Ostermeyer invested heavily into research and development, creating numerous new products.

Accomplishments include, but are not limited to the Continuous Door Hinge, the Floating Tee Bar Body Pivot, the Perimeter Hoist, the Door Less Side Tipper, the Flex Tipper, the Centre Tipper the Bowl Door Tipper and the High Volume Side Tipper.

In May 2012, the business of AZMEB Global Trailers was acquired by MaxiTRANS Australia Pty Ltd, Australia's largest manufacturer of semi-trailers, trailing vans and tippers.
